9 PRESERVING THE ENVIRONMENT

GETTING STARTED

Environmental impacts

1 Listen and read.

Nam's father: What are you doing, Nam?

Nam: I'm writing for my school newsletter.

Nam's father: What are you writing?

Nam: Well, the editor asked me to write a letter giving some practical advice on environmental preservation. So far, I haven't had any ideas!

Nam's father: Have you used the web search engine to find any information?

Nam: Yes, I have. However, it was confusing because I got too many search results and web pages about the environment.

Nam's father: Well, read all of them quickly for ideas and select the most suitable for the topic.

Nam: By the way, what does 'environmental impact' mean, Dad?

Nam's father: Uh ... it means negative effect or influence on the environment. Well, you can check the meaning using the online dictionary.

Nam: I'll do it right now ... Oh, yes, you're correct.

Nam's father: But why are you interested in environmental impacts?

Nam: Well, I think if we can see the environmental impacts, we'll know how to protect the environment from many threats such as deforestation, pollution, global warming and fossil fuel depletion.

Nam's father: Correct! Air pollution, the greenhouse effect and global warming have a negative impact on the environment. As a result, polar ice is melting and sea levels are rising. You need to focus on your topic.

Nam: Dad, thanks for your help!

Nam's father: OK. Good luck, Nam!
