

Nama : _____ Kelas : _____

A. Berdasarkan graf fungsi kuadrat di bawah, tandakan **X** dan nyatakan punca bagi persamaan kuadrat yang diberikan. SP1.1.5 TP2

Contoh: $f(x) = x^2 - 2x - 3$

Punca:
 $x = -1, x = 3$

1. $f(x) = x^2 + 5x + 6$

Punca, $x =$

2. $f(x) = x^2 + x - 2$

Punca, $x =$

3. $f(x) = x^2 - 3x$

Punca, $x =$

4. $f(x) = -(x-1)^2$

Punca, $x =$

5. $f(x) = -2x^2 + 2x + 4$

Punca, $x =$
