

## ΘΕΜΑ 1. ΚΑΤΑΝΟΗΣΗ ΓΡΑΠΤΟΥ ΛΟΓΟΥ

Read the text and decide if each statement (1-10) is True (A) or False (B).

In the past, shopping meant getting all items on the list from the local grocer's or the local open market. This has dramatically changed after the Second World War. When I was a child, I remember my mother sending me to the grocer's with some eggs in a basket, potatoes in a sack or anything else we had in order to exchange them for sugar, coffee, soap or other goods. The grocer knew my first name and who my parents were. He always asked me how I was doing at school. Then, he took what I had brought for him in the basket and gave me what my mother needed. Back in the 1940's and the 1950's, housewives could not even think of buying ready-made food. People used to have their clothes and shoes made-to-measure and did not buy any ready-made ones.

When factories were built, they started producing everything one wanted in big quantities. Variety and choice replaced the idea of managing with only what one could find in the local grocery. As time passes by, people do things they did not use to do some years ago. For example, older people like my mother, never allowed their children to eat factory-made goods at home. Now, my mother eats cornflakes and chips together with her grandchildren and even buys a cake at the supermarket.
