

Zoological Museum

I know in Saint Petersburg there is one of the oldest and biggest zoological museums in the world

Can you help me with information about other animals for my project on Science? Firstly, find their names in the wordsnake. Order the letters to make the words. Then go to the museum and complete the fact files about these animals – drag the words and numbers to the gaps.

My favourite animal is a Komodo dragon. It lives in Indonesia. It's the biggest lizard in the world. It can be 3 meters long. It can reach 150 kilos.

Name: _____

--	--	--	--	--	--	--	--	--	--

Lives in _____.

Can be up to _____ metres long.

Can reach _____ kilos.

Name: *The Aldabra giant*

--	--	--	--	--	--	--	--

Lives on _____ Islands.

Can reach _____ kilos.

Can live over _____ years.

Do a project

- ✓ Choose an animal you like
- ✓ Draw a picture or take a photo of it
- ✓ Write: - where it lives
- ✓ - what it eats
- ✓ - what size it is

✓ Stick your project on the virtual wall
