

FORCES

A hand holding a glowing sword against a starry night sky. The hand is positioned in the lower center, gripping the hilt of a sword. The sword's blade is a bright, vertical beam of light that extends towards the top of the frame. The background is a dark, deep blue night sky filled with numerous small, white and blue stars. The overall composition is centered and symmetrical, with the sword acting as a focal point.

UNIT 5

FRICTION

Tarmac

40m

Grass

30m

Ice

45m

Sand

35m

The Surface	Distance (M)
1.	
2.	
3.	
4.	

Which droid travelled the farthest distance?

Which droid travelled the shortest distance?

Which surface created the most friction?

Which surface created the least friction?

MAGNETS

Steel

Copper

Iron

Brass

Nickel

GRAVITY

pulls Isaac newtons mass little force down

Gravity is a _____ that _____ things _____ towards the planets surface.

Gravity was discovered by _____ Newton. He learned that 'what goes up must come down'. This is why we measure force using _____.

Gravity is stronger with objects that have a lot of _____. In space there is _____ gravity so objects float.
