

# Money then and now

The story of our money:

In South Africa we use rands and cents as our money.

We started to use rands and cents in 1961.

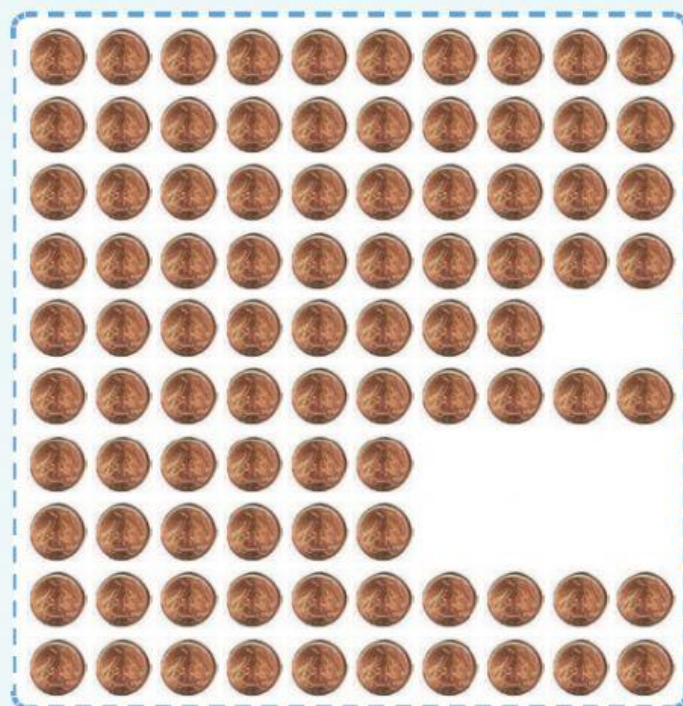

In those days the 1 cents was the lowest value, then the 2 cents and then the 5 cents.

Count the 1 cents.

How many cents are there?

How many more cents do you need to make R1,00?

R1,00 =  c

R2,00 =  c

R3,00 =  c

R1,50 =  c

How much fruit can I buy?

How many bananas for R20,00?

How many apples for R9,00?
