ON THE MOVE

I prefer to travel with comfort. I don't like slow means of transport, because there are so many places to see! It's impossible to see everything if you travel by train or by bus. During my holidays I usually visit many places and cities. So I prefer the fastest means of transport.

My family and I like travelling, but we don't like to be in a hurry. I enjoy the nature and I am fond of making photos. My parents are afraid of flights, but they really enjoy voyages. I think, this is the best way to spend your holidays.

I don't like cars and planes. I think they are too dangerous. My mother prefers travelling by train and I agree with her. This is a good way to see the country and meet new friends. And you don't have to hurry!

I think that travelling by plane, train, and bus isn't comfortable. You can't change the way of your trip and you can't stop and see the places you like. My father drives a car and I think this is the best means of transport for travelling on business and for pleasure.
