

1. READING. Read the text and write TRUE or FALSE

- a) Facebook is more popular than Google.
- b) It was created by a professional web designer.
- c) It has been available for more than 20 years.
- d) Mark Zuckerberg graduated from Harvard University.
- e) It has more than 200 million members.
- f) You can only upload your pictures and play games on Facebook.
- g) It is the only site in which you can chat and comment on people's posts.

Facebook is the most popular social networking website and the second most popular website on the internet, after Google. It has over 750 million **members**, and every month more than 137 million people **log on**. It was created in 2004 by Mark Zuckerberg, a college student at Harvard University in the USA. At first you could only join Facebook if you went to an American university, later it became a **global** website and people of all ages, all over the world, could join. If you want to join Facebook, first you have to create a profile. Then users can **post** an online **status**, **upload** photos and videos, chat to friends, play games, create and join groups and events, **comment** on other people's activity and much more. However, it is not the only social networking website that is available. It **competes** with Myspace, Bebo and most recently Google+ which all offer different features to users, such as **uploading** music and video chat.
