3. Do you practise? When? Where?
4. Will it be useful in your future job?

Example: My talent is that I can sing really well. I've always liked music. I sing all kinds of songs, including rock, pop and classical music. I first discovered this ability when I was young. I often listened to music and sang at the same time. I've done it many times at parties, in front of my friends and in karaoke bars. There is no magic secret. I just listen carefully and practise on my own.
