

Writing Time!

Writing about a serie of past events

Planning! Order your ideas

- ✓ What is the event you would like to write about?
- ✓ What happened? What is the most recent action? Which are the latest ones? (Think about it)

Instructions:

- Write isolated sentences trying to express your ideas
- Set the order
- Connect them with coherence and cohesion.

Useful connectors and expression that can be used: so, when, while, then, but, before that, previously, on Monday morning, by 5 o'clock yesterday, the day/night before, the previous day/s, one day, suddenly, like three summers (weeks, months, days) ago, before leaving, later, as soon as, finally.
