

Match each picture and definition with the movie genre it represents.

Action * Comedy * Drama * Fantasy * Science Fiction * Horror
Mystery * Romance * Thriller * Animation * Musical

They try to make you laugh and have a good time.

They show you possible futures, and they usually include space travel, extraterrestrials and technology.

In these movies the "actors" and "actresses" are not real: they are drawings or 3D models.

In these movies there is always a crime that needs to be solved.

They are serious, realistic movies. You will probably cry watching them.

They have danger, violence, a lot of running and jumping, explosions and car chases.

The characters tell the story through songs and dances.

They tell different stories about love and passion.

They are very scary. Many times there are monsters, ghosts or blood.

They give you feelings of suspense, excitement, surprise and anxiety. They will make you feel tense.

Movies that have things and creatures that are not real, such as magical objects, dragons, witches, vampires...
