

TRABAJAMOS LA MASA 1

Completa:

$2 \text{ kg} = \quad \text{dag}$

$25 \text{ hg} = \quad \text{cg}$

$48 \text{ dag} = \quad \text{cg}$

$8 \text{ g} = \quad \text{mg}$

$234 \text{ g} = \quad \text{dg}$

$608 \text{ kg} = \quad \text{hg}$

$12 \text{ dag} = \quad \text{cg}$

$35 \text{ hg} = \quad \text{dag}$

$23 \text{ hg} = \quad \text{dag}$

$29 \text{ dag} = \quad \text{dg}$

Pasa a la unidad que se indica:

A gramos:

$28 \text{ kg} = \quad \text{g}$

$25 \text{ hg} = \quad \text{g}$

$98 \text{ dag} = \quad \text{g}$

$8 \text{ dag} = \quad \text{g}$

$464 \text{ hg} = \quad \text{g}$

$25 \text{ hg} = \quad \text{g}$

A miligramos:

$67 \text{ g} = \quad \text{mg}$

$6 \text{ cg} = \quad \text{mg}$

$5 \text{ dg} = \quad \text{mg}$

$81 \text{ g} = \quad \text{mg}$

$78 \text{ cg} = \quad \text{mg}$

$608 \text{ dg} = \quad \text{mg}$

A centigramos:

$2 \text{ hg} = \quad \text{cg}$

$56 \text{ g} = \quad \text{cg}$

$15 \text{ g} = \quad \text{cg}$

$369 \text{ dg} = \quad \text{cg}$

$56 \text{ dg} = \quad \text{cg}$

$92 \text{ dag} = \quad \text{cg}$
