

Pengiraan yang melibatkan sudut pelengkap, sudut penggenap dan sudut konjugat

NOTA

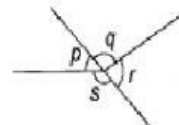

Hasil tambah sudut-sudut pada satu garis lurus ialah 180° .

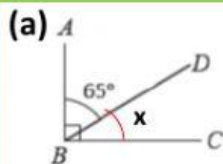

MON ialah garis lurus.
Maka, $a + b + c = 180^\circ$

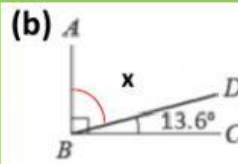

Hasil tambah sudut-sudut oleh satu putaran lengkap ialah 360°

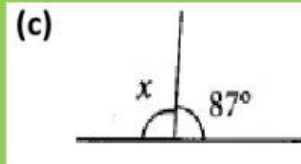

Maka, $p + q + r + s = 360^\circ$
