

UNIT 6: Language Test A

VOCABULARY

1) Complete the sentences with the correct prepositions.

- 1 Do you study animal behaviour school?
- 2 It's not unusual to see foxes gardens near city centres these days.
- 3 Jake showed me some of the amazing photos he keeps his mobile phone.
- 4 We crossed the road to the field our house in order to film the hawks swooping above it.
- 5 Let's meet the museum. I'll wait for you at the gates to the main entrance.
- 6 Have you been to the photography exhibition Emerald Street yet?

2) Complete the text with these words.

blur by narrative no perspective point sequences struggle time

My brother Freddie

My older brother, Freddie, is at university studying photography. He hopes that, (22) the time he's twenty-three, he'll be a wildlife photographer. Right now, he's on the (23) of taking his final exams. In (24) time at all, he'll be a graduate looking for a job opportunity. I imagine it will be a (25) for him to begin. But I've seen some of Freddie's work, and the films he makes are amazing! He does a lot of 'timelapse' photography, which means he slows things down; when animals move fast and he films them, he gets lots of detail instead of just a (26) He also films animals from unusual angles and in different situations, so his films show a different (27) on animal life. The way Freddie puts his film footage together is another thing that makes him stand out – he always creates a fascinating action (28) in his films. He creates a brilliant (29) of wildlife with every film he makes. I'm not very objective, but I believe that in no (30) at all, Freddie Barker will be a well-known wildlife photographer!

3)

_____ /9

4 Complete the conversations with the correct form of the words.

- 1 A: What's the best way to (strong) your online security?
B: Keep changing your password and update your (private) settings.
- 2 A: They say that yoga is a good way to help with (anxious).
B: Yes, I've heard that it can be (benefit) too.
- 3 A: I'm so sorry. I (accident) tore your jacket when I borrowed it.
B: Oh, don't feel too (guilt). I'm sure it can be repaired.

4 A: There's been no (short) of interest in the idea of a class rep.

B: Great. I wonder how many (apply) there will be.

5 A: Why would any want to be a (collect) of old mobile phones?

B: I know. Some people get (please) from the strangest things.

6 A: I really like your dad. He's much more (tolerate) than mine!

B: Yes, I'm (fortune) that he doesn't often lose his temper.

4) Use the word given in capitals at the end of some lines to form a word that fits in the gap in the same line.

Seeing the natural world

It isn't easy to say with complete (36) exactly how other animals see the world. **ACCURATE**

But thanks to research, we can be reasonable (37) about the following **CONFIDE**

information. It used to be thought that dogs only saw in black and white, but in fact they

see a (38) of colours like we do. However, their sight is not great and **VARY**

(39) objects can look blurred to them. For birds, good eyesight is **DISTANCE**

(40) for safe flight, and for spotting food, sometimes from a great **ESSENCE**

(41) Without excellent vision, their (42) is threatened. **HIGH, SURVIVE**

What about insects? Well, flies have eyes that are adapted to the way they live – they

have 'all-round' (43) and can move fast if danger is approaching from any side. **VISUAL**

Eyesight is related to (44) factors – snakes for example can 'see' heat! **ENVIRONMENT**

They know when a (45) predator is close because their eyes tell them! **DEAD**
