

CÁLCULO

1. Calcula.

$7 \times 3 = \square$

$9 \times 8 = \square$

$5 \times 4 = \square$

$9 \times 9 = \square$

$5 \times 8 = \square$

$6 \times 6 = \square$

$7 \times 6 = \square$

$7 \times 8 = \square$

$6 \times 9 = \square$

$11 \times 3 = \square$

$11 \times 8 = \square$

$11 \times 4 = \square$

$101 \times 9 = \square$

$101 \times 8 = \square$

$101 \times 6 = \square$

$111 \times 6 = \square$

$111 \times 8 = \square$

$111 \times 9 = \square$

2. Calcula.

	CM	UM	C	D	U
		8	2	8	6
X					7

	CM	UM	C	D	U
		5	3	7	4
X					3

	CM	UM	C	D	U
		2	5	8	7
X					9

	CM	UM	C	D	U
		4	7	3	5
X					6

3. Realiza las siguientes divisiones.

8 9 7 | 6

-

-

-

A blank place value chart with columns labeled 6, 9, 4, and 4. The chart has three rows of boxes, with horizontal lines separating the rows. Red minus signs are placed to the left of the first two rows.

9 9 4 | 7
