C. READING (2pts)

I. Read the passage again to answer True (T) or False (F). (1pt)

One of the strangest festivals in the world is Day of the Dead. It is a superstitious festival. Day of the Dead is celebrated on November 1st in Mexico, Ecuador, Guatemala and other parts of Central and South America. Families gather to pray to dead relatives and ask them to return for just one night. People decorate their houses and graveyards with food, candles, candy skulls and marigolds to welcome the dead people back to the Earth.

It sounds like a scary event, but it's a happy time to celebrate and remember the lives of dead family members.

II. Read the passage about fossil fuels. Answer the questions. (1pt)

There are three major forms of fossil fuels: coal, oil and natural gas. All three were formed many hundreds of millions of years ago before the time of the dinosaurs – therefore we call them fossil fuels.

Fossil fuels take millions of years to make. But they are not unlimited. We are using up the fuels that were made more than 300 million years ago. They are not renewable like solar power, wind power, hydro power or biomass. Once they are gone, they are gone. So, it's best not to waste fossil fuels.

We can save fossil fuels by conserving energy. One simple way to do this is to turn off appliances, TVs and radios that we are not using. We can also turn off lights when no one is in the room. Another way is to go by bike or walk instead of driving cars or motorbikes.

• Questions :

1. What are three major forms of fossil fuels?

->.....

2. How long does it take to make fossil fuels?

->.....

3. Will fossil fuels come back later if they are used up?

->.....

4. What do you do to conserve energy?
