Read the passage and mark the letter A, B, C, D on your answer sheet to indicate the correct answer to each of the question

When people meet you for the first time, they search for all sort of clues to make judgements about you, but the most important of these are given by your clothes. So, if you want to appear more exciting and to create a good impression, it helps to know a little about the secrets of style.

You may think that changing your image means changing all the clothes you have and spending a great deal on a completely new wardrobe – but the good news is that it doesn't – all you have to do is to make better use of what you already have by following some sensible rules.

Avoid wearing clothes with two different designs. Remember too that the kind of pattern you choose can affect the way you look. If you're fairly small, go for a plain top or with small patterns; on the other hand, if you want to look slimmer, clothers with big designs are more flattering.

Choose clothes in a color that suits your hair and skin type. As a general rule, people with blonde hair and fair skin look best in pale colors such as light blue, pale green or pink. If you have a light brown hair, light eyes and a fair skin, you should choose medium shades such as mid-grey, green raspberry red. People with dark hair and olive of dark skin can wear the brightest colors such as orange or yellow.

Accessories such as watches, necklaces and carrings can help to give a finishing touch, but most people make the mistake of wearing their most valuable jewelry rather than choosing something that goes with what they are wearing. Keep it simple and select only one or two items at a time.

So, the main thing is choosing clothes that suit you will make you look your best and enable you to feel more comfortable and relaxed.
