

# Упражнения по математика

1.

Запиши с цифри числата:

а) седем, дванадесети, три, двадесет, пети;

б) седемдесет, шестнадесети, осем, тринадесети, сто.

|    |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|----|--|--|--|--|--|--|--|--|--|--|--|--|--|--|--|
| а) |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| б) |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

2.

$> = <$

|    |                                                                                                |    |
|----|------------------------------------------------------------------------------------------------|----|
| 7  | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 3  |
| 12 | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 4  |
| 15 | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 20 |
| 12 | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 4  |

|    |                                                                                                |                |
|----|------------------------------------------------------------------------------------------------|----------------|
| 7  | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 1 дес. + 3 ед. |
| 16 | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 1 дес. + 7 ед. |
| 15 | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 1 дес. + 5 ед. |
| 20 | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | 2 дес.         |

3.

|             |                                                                                                |

| $15 - 7 =$  | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> |

4.

|                                                                                                |                                                                                                |        |
|------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|--------|
| $5 +$                                                                                          | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $= 17$ |
| $6 +$                                                                                          | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $= 18$ |
| <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $- 2 =$                                                                                        | $18$   |
| <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $- 9 =$                                                                                        | $8$    |

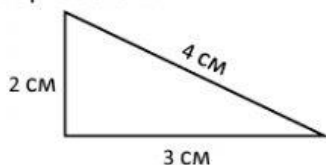

5.

$> = <$

|          |                                                                                                |           |
|----------|------------------------------------------------------------------------------------------------|-----------|
| $11 + 8$ | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $20$      |
| $17 - 9$ | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $8 + 3$   |
| $1 + 8$  | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $19 - 10$ |
| $15 + 4$ | <div style="border: 1px solid black; width: 20px; height: 20px; display: inline-block;"></div> | $9 + 7$   |

6.

Каква е начертаната фигура? Оцвети в син цвят върховете ѝ.

Фигурата е: \_\_\_\_\_

Начертай отсечка, която да е с 3 cm по-дълга от най-късата страна на триъгълника.

cm

7.

В състезание по математика участвали 4 момчета и 12 момичета. С колко повече са момичетата?

|          |  |  |  |  |  |  |  |  |  |
