

I. Read and write T or F

What will life be like in 200 years?

In 200 years, there will be lots more people, so it will be too crowded on Earth. I think we will have to build new cities in space. People will live on space stations in very tall apartments. There will be schools on the space stations for children. But there won't be any playgrounds. Maybe children will have robots to help them with their homework and tell them when to go to bed.

I think that the way we travel around the space stations will also be different. We will all travel in mini spaceships which will be very fast. You won't be able to buy a spaceship because they will be very expensive. Instead, the spaceships will be like trains for everybody to use.

1. The reading is about travel in future.
2. The reading is about life in future.
3. People will use space station to travel fast.
4. People will use space station to live in.
5. People will live on Earth.
6. There will be cities in space because there
will be too many people on earth
7. There won't be any playgrounds.
8. Robots will help children with
their homework.
9. Spaceship will be expensive.
10. People have to buy their own spaceship.
