Unit 7: matter. key words

Which are the general properties of matter?

What is mass?

Mass is measured in...

Which instrument do we use to measure mass?

What is volume?

Volume is measured in...

Which instrument do we use to measure volume?

What is density?

Properties of solids

Properties of liquids

Litres, millilitres...

It's the relation between mass and volume

They can be: elastic, flexible, fragile, strong...

Amount of matter in an object

Measuring cillinders

Amount of space that an object occupies

Mass and volume

Grams, Kilograms...

They can be: viscous, volatile ...

Scales
