

Listen to the next part of the recording and complete paragraph below. Write **ONE WORD ONLY** for each answer.

**Tutor:** So, shall we have a look at your (1) \_\_\_\_\_?  
Did you bring it with you?

**Anne-Marie:** I've (2) \_\_\_\_\_ it here on a memory stick. Can we show you on your computer?

**Tutor:** Yes, that's fine. Let's have a look. Right, as you say, you're going to add the (3) \_\_\_\_\_ of using mobile phones to the first slide. Good. Who's going to explain the (4) \_\_\_\_\_ slide with all the dangers?

**Laila:** That's me. Do you think I've got (5) \_\_\_\_\_ detail?

**Tutor:** Yes. I think there's plenty of information, but I think it's all a bit mixed up at the moment. I mean, you've got (6) \_\_\_\_\_ like getting headaches in the same list as having car accidents and being robbed in the street. They're all different types of danger, aren't they? I think you should divide them into groups. Maybe under (7) \_\_\_\_\_ titles, like Health, Accidents and Security.

**Laila:** Oh, right. Yes, thank you. That'll make it much  
(8) \_\_\_\_\_ to the audience ...OK.

**Tutor:** Now, in the third slide you can put your  
(9) \_\_\_\_\_ for staying away from each of these  
dangers under separate (10) \_\_\_\_\_.
