SUPERMAN

THE SUPERHERO

We've all heard these words – "Look up in the sky! Is it a bird? Is it a plane? No, it's Superman!"

Superman is one of the most popular superheroes in the world. He appears in three different comic books, which 30 million people read. We all recognize his red and blue uniform. But what do we really know about him?

Superman was born on the planet Krypton. His father knew that Krypton was in danger, so he decided to save his baby son. He sent him away in a rocket*, which landed on Earth. Jonathan and Martha Kent found the baby boy and decided to keep him as their son. They named him Clark.

The Kents soon learned that Clark wasn't an ordinary boy. He was faster than a train and could fly higher than an airplane. He was the strongest boy on Earth. Clark's new parents taught him to use his superpowers* to help others.

When Clark Kent grew up, he went to work for a newspaper. His friends at work think he's just an ordinary man. They also think he's quieter than most people. But we all know that when there is danger, Clark Kent disappears and Superman appears.
