When we add we put things together. When we add we always end with more than what we started with.

Work the problems below. Remember to look for those words that tell us to add.

A

1. 5 bags and 4 bags make ☐ bags.

2. 6 plus 8 equals ☐

3. 2 more than 9 is ☐

4. What is the sum of 3 and 10? ☐

B

Dave had	6	plums
His brother gave him	7	more

In all he has _____ plums.

Ted has   11   pencils
Shon has   5   pencils

Altogether they have _____ pencils.

Sheena buys   12   mangoes
Terry buys   2   mangoes

In total they have   _____ mangoes.

C.

Read the problem below and note how it is set down. Write the correct answer.

For school sports Jaheim scored 9 points and Jashon scored 5 points. How many points did the boys score in all?

Jaheim   9   points
Jashon   +   5   points

_____ points in all
