

Lena: I think (1) geology would be
(2) most interesting science to
study. It's (3) pity we don't do
it at (4) school because I like
(5) idea of becoming (6)
geologist.

Felix: I think (7) one that appeals to
me most is (8) zoology. It'd
be fantastic to get (9) job in
(10) countryside in (11)
Africa studying (12) animals like
(13) lion or leopard.
