| 6 | What is MISO? | | "Anime" in Japan technically means any animated film, and "manga" is any printed cartoon, but people in the rest of the world take them to mean animated films or comics from Japan. |
| 7 | Why is ramen famous? | | He eats there regularly – usually stopping by between missions – and he is often joined by Iruka Umino, another frequent customer. |
| 8 | What is Ramen Ichiraku? | | Miso is produced by fermenting soybeans with salt and kōji and sometimes rice, barley, seaweed, or other ingredients. The result is a thick paste used for sauces and spreads, pickling vegetables, fish, or meats, and mixing with dashi soup stock to serve as miso soup, a Japanese culinary staple. It is high in protein and rich in vitamins and minerals.<br>Miso is still widely used in Japan, both in traditional and modern cooking, and has been gaining worldwide interest. Typically, miso is salty, but its flavor and aroma depend on the ingredients and fermentation process. |
