5. Isn't it true that _____ people are, _____ they're likely to live? (healthy, long)

Reading:

"Robot Birds"

Liverpool city council wants to clear the city of fat pigeons. They say that people are feeding the birds, which makes them fat. The pigeons get bigger because their normal diet would consist of seeds and insects, not high-fat junk food they are eating in the downtown part of the city.

The council wants people to know that everyone who feeds the pigeons is responsible for the streets being so crowded with these birds. They hope to encourage the birds to move away from the downtown into parks and open spaces.

Ten robotic birds have been brought into the downtown to scare the pigeons away and visitors are asked not to give the pigeons any food. The mechanical birds - known as 'robops' - will sit on the roofs of buildings. They can be moved around to different locations. They look like a peregrine falcon, which is a bird that kills pigeons. They even make noises and flap their wings to scare the pigeons. They hope that the pigeons will go away before the city becomes the European Capital of Culture in two years.

Choose T for true, F for False or NI for No Information

1. Pigeons get fat because they eat seeds and insects. _____
2. According to the council, everyone is to blame for the number of pigeons.

3. They want the pigeons to move out of the downtown. _____
4. Visitors shouldn't feed the pigeons. _____
5. The robotic birds can move around the neighborhoods. _____
