20. "Could I ask you a few questions about your favorite movies?" _____
A. That sounds good. B. Sure. Go ahead C. Not a bad idea

C. READING

I. Read the passage. Circle A, B, or C to answer each question.

Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start saving coal, oil and gas before it is too late; and solar power is the only alternative.

However, many people do not approve of using nuclear power because it's very dangerous. What would happen if there was a serious nuclear accident? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economical as possible.

21. *How much fuel left?*
A. there is a lot of fuel
B. Let's use it as much as we would like
C. No one knows exactly
22. *According to professor Mavin Burnham, _____.*
A. solar power is the only alternative

C. READING

I. Read the passage. Circle A, B, or C to answer each question.

The idea of a driverless car is not new. Now there are already cars on the road that can park themselves. But a truly self-driving car, one that can drive itself, is being tested by scientists and engineers.

Self-driving cars have already tested on public roads. These cars not only record images of the road, but their computerised maps view road signs, find alternative routes and see traffic lights even before they are seen by a person. By using radars and cameras, the cars can analyse information about their surroundings faster than a human can.

In some of the tests, the car learn the details of a road by driving on it several times, and when it is time drive itself, it can identify when there are pedestrians crossing and then stops to let them pass by. Self-driving cars could make transport safer for all of us by eliminating the cause of most of today's accidents.

21. What is the main idea of the passage?

- A. Self-driving car: a far off image
- B. The prospect of driverless cars
- C. Computerised maps in cars

22. Now there are already cars on the road that can
