

Tony

My name is Tony and I live in San Diego. I am a very active and I like to play lots of sports. My favorite activity is skateboarding. There is a park near my house that I visit every day after school where my friends and I like to go skateboarding. Unfortunately once in a while I fall and injure myself. And if you fall and hit yourself very hard, you'll break a bone. Right now I have a broken arm and if you have a broken arm, it will hurt a lot. My mom says that if you skateboard, you will get hurt but I say that if you skateboard, you won't be bored.

Claire

My name is Claire and I live in Miami, Florida. I am nurse and I work in a hospital at night. This is a problem for me because my neighbors are renovating their house and I cannot sleep because of the construction noise. I always have a headache because I'm very tired. It's very difficult for me to work like this. If you don't sleep, your brain will stop working. I have to be very careful, because if you're distracted, you will make terrible mistakes.

Haruki

I am Haruki and I live in Tokyo. I live in a small apartment and I spend a lot of time at work. I take the subway to work every day so I come in contact with many people. If you come in contact with that many people, will you get sick? Yeah, you'll get a cold at least three times a year. Right now I'm sick. And if you have a cold or the flu, you will get a sore throat and maybe even a little bit of a fever. I won't go to work today, because unless I rest, I won't get better soon.
