Colegio Cristiano Nuevo Camino
Tercero Básico
Física Fundamental
Profa: Guisela Reyes

Fecha de Entrega: ***Viernes:***.....

Primer **Apellido**: ..... Primer **Nombre:** .....

I Serie

Instrucciones: Utilizando el **teorema de Pitágoras** calcule la longitud del lado desconocido de los triángulos que a continuación se le presentan.

Teorema: $a^2 + b^2 = c^2$

11. 
12. 
c = $\sqrt{\quad}$ a = $\sqrt{\quad}$

c = $\sqrt{\quad}$ a = $\sqrt{\quad}$

c = $\sqrt{\quad}$ a = $\sqrt{\quad}$

c = ---------- a = ----------

13. 
c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = ----------

14. 
c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = ----------

15. 
c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = ----------

16. 
c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = $\sqrt{\quad}$

c = ----------
