## Trains

### b) Complete the passage with appropriate words from the train.

Have you (13.) \_\_\_\_\_ travelled in a train? It's one of the (14.) \_\_\_\_\_ popular forms of transport. A train (15.) \_\_\_\_\_ only carry passengers. Trains also carry mail and transports lots of manufactured products. Lumber companies, for example, (16.) \_\_\_\_\_ trains to carry their wood, because using trains is much cheaper than using some other forms of transport.

Richard Trevithick, a British engineer, (17.) \_\_\_\_\_ the first steam locomotive in 1804. It (18.) \_\_\_\_\_ used in a coal mine (19.) \_\_\_\_\_ Wales. It carried coal from the mine. The first railroad for public use was built in England (20.) \_\_\_\_\_ George Stephenson twenty one years later, in 1825. Although railways (21.) \_\_\_\_\_ invented in England, they are now very popular in the U.S.A. Almost every city and town is on a rail route. Modern trains are very comfortable. People like (22.) \_\_\_\_\_ on them because they offer a relaxed atmosphere, as well as beautiful views from the window.

**c) Read and type T for true or F for false. Use capital letters**

**Adopt a Snow Leopard**

Snow leopards live in mountainous regions of Southeast Asia. They are some of the most endangered animals in the world. Adopting a snow leopard is a great way of protecting this beautiful animal as well as supporting the other international work of the WWF (World Wide Fund for Nature).

WWF works with local communities to protect animals and, at the same time, help people. One way it does this is by conserving animal's natural habitat. Local people benefit from this conservation, since they, too, need the natural resources the habitat provides, including food, wood, and medicine. Another way that WWF protects snow leopard is by funding breeding programs of animals that are prey for the leopards. If the leopards have enough wild animals to eat, they won't kill local livestock. Then, the farmers won't have to kill leopards to protect their animals. WWF also gives money to farmers who have lost their livestock to snow leopards.

23. Snow Leopards live in rainforests.

☐

24. If you adopt them, you'll support organizations.

☐

25. WWF means World Wide Fund for Nourishing.

☐

26. The WWF conserves animal's natural habitat.

☐

27. Natural resources in the habitat are food, wood, and medicine.

☐
