The availability of electronic gadgets has multiplied over the years, and the technology of these devices has only improved. They exist for every facet of life, from entertainment to education and from work to play. Entertainment gadgets include **mp3 players**, **book e-readers**, **portable movie players**, **cell phones, and digital cameras**. Gadgets for work include **cell phones**, **portable computers and tablets**, **digital watches**, and many more. Gadgets seem to be available to suit any need in the modern age.

The general purpose of most electronic gadgets is to make life easier, more fun, or more efficient. **Computers** are perhaps the most sought-after electronic gadgets that fall into just about any category. **Tablets** are thin, small computers that are touch-screen activated and navigated. Another gadget close to such tablets is the **smart phone**, which is a combination of a computer, telephone, and camera.

Digital cameras are increasingly popular electronic gadgets because they have become much easier to use and produce better pictures than ever before. The photos can be uploaded quickly to computers for display on websites or printing onto traditional photo paper. Smaller cameras are so small as to fit in one's pocket, and now even high definition **video cameras** are made to fit too, yet still high quality enough to produce sharp, attractive videos.

The impact of all these products can be tremendous, in fact, new technology can completely revolutionize the way we play, communicate, work and live our lives.
