

SUPERSTITION

Lesson preparation

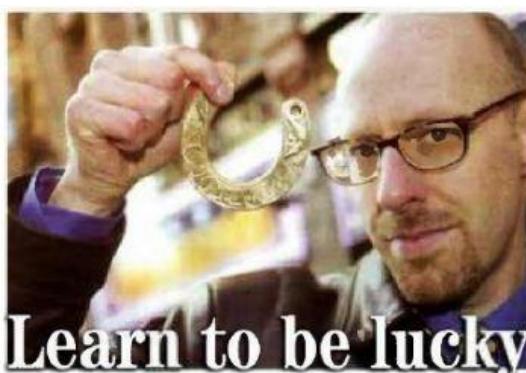

1. R6.6 Listen to Edward and Charlotte talking about superstitions.

Complete these sentences.

1. The idea of seven years bad luck was started by _____.
2. Rabbits were good luck because they had a lot of _____.
3. People used to believe that good spirits lived in _____.
4. Many years ago salt was used as a _____.
5. In the UK you throw salt over your _____ shoulder.

2. Read the article. Look at the words in yellow and blue. Match them to these synonyms.

choose	pick	by chance	
satisfied		attitude	
lucky		sure	
behave		deal with	
notice		show	

Learn to be lucky

In June 1980, Maureen Wilcox became one of the US lottery's biggest losers. She chose the winning numbers for both the Rhode Island and Massachusetts lotteries. But unfortunately for her, the numbers she picked for the Rhode Island lottery were the correct ones for the Massachusetts lottery, and vice versa. We all know lucky people — they have good relationships, successful careers and are very satisfied with their lives. But what makes them so lucky? Dr Richard Wiseman has spent ten years studying luck and has found that lucky people have a completely different approach to the world.

FOUR WAYS TO BE LUCKY

The results of his work **revealed** that people aren't born lucky. Instead, **fortunate** people behave in a way that creates good luck in their lives.

- They **notice** opportunities that happen **by chance** more often than unlucky people. They are also more open to meeting new people and having new experiences.
- They tend to make good decisions by listening to their intuition.
- They're optimists and are **certain** that the future is going to be full of good luck. This positive **attitude** often makes good things happen.
- They're also good at **coping with** bad luck and often cheer themselves up by imagining things could be worse than they are.

LUCK SCHOOL

Dr Wiseman tested his ideas by starting a luck school, where he hoped that unlucky people could learn to be lucky. 900 volunteers spent a month doing exercises to help them think and **act** like a lucky person. These exercises helped the volunteers **spot** opportunities that happen **accidentally**, trust their intuition more, feel **sure** they're going to be lucky and become better at **dealing with** bad luck. The results were dramatic and **showed** that 80% of the volunteers were now happier and more **content** with their lives — and most important of all, luckier. Dr Wiseman's ideas won't help you win the lottery, but they might help you in your day-to-day life — fingers crossed!
