

Exercise 1: Match the dinosaur names in the box with the picture

T-rex

velociraptor

pterosaur

triceratops

1

2

3

4

Exercise 2: Remember the story. Read the summary and complete the words.

The children see a triceratops eating (1) bushes. Alex walks towards it. Phoebe says that he might (2) see it. The dinosaur quickly walks away, but it's not Alex who is scaring it. It's a (3) group of small dinosaurs which are coming out of the jungle. Patrick says that they don't need to (4) walk because the dinosaurs are only small. Then one of them opens its (5) mouth and shows lots of sharp (6) teeth. Alex knows that they are velociraptors and he knows that he is in trouble as they make a (7) circle around him. Suddenly a huge (8) head appears and grabs one of the small dinosaurs, so the others run away. The children are now safe from the velociraptors, but in big (9) danger from a T-rex! They start to run and just as the huge (10) danger is going to catch them, they are picked up by a pterosaur in its (11) big wings. The flying dinosaur takes the children back to its (12) nest and drops them towards its (13) home babies. Luckily, the gate appears and takes the Time Travellers back to the safety of their (14) castle.

Exercise 3: Answer the questions.

1. Why does Patric think that Alex is mad?

2. Why isn't Alex scared of the triceratops?

3. What are the velociraptors doing when the T-rex appears?

4. What does the T-rex do when the pterosaur grabs the kids?

5. What does Mr Davis ask?

Exercise 4: How much do you remember about the Time Travellers' adventures? Do the quiz!

1 What sport are the children watching when Patrick hurts his foot?

a Boxing b Fencing c Wrestling

2 What do the children help Mr Fisher put on his cart when they are escaping from the Great Fire of London?

a A table b A chest c Some chairs

3 What does Professor Potts' Homework Express give as the answer to $2,345 \times 4,567$?

a New York b London c Paris

4 What are the NASA engineers all drinking when they fall asleep?

a Tea b Coffee c Hot chocolate

5 What rescues the children in the North Pole?

a A boat b A ski-doo c A helicopter

6 What scares the triceratops?

a A T-rex b Some velociraptors c A pterosaur
