C. READING COMPREHENSION

Read the following passage and answer the questions below. Use FULL sentences.

Every year, during the months of July and August, most schools are closed. It is vacation time for children in the Caribbean. Do you know what happens then? There is no uniform to wear and no homework to do! It is an exciting time and most children look forward to it.

During this time, parents may also take time off from work to share the vacation with their children. Usually some families would take this time to travel to other countries or even visit popular beaches, malls, parks and zoos but this year is a little different.

Because of the coronavirus, people have to stay home to stay safe. This year, families have to find ways to have fun at home. Instead of watching TV all day, children can have fun learning how to do something new, reading books or going to vacation camp online. Even though things are different, families can still have a lot of fun.
