A new gadget

I've just bought a fitness watch. I've wanted one ¹ a long time because I play a lot of sport. You can ² an app for the watch onto your phone. When you connect the watch to the app, it tells you about your sleeping patterns and your physical activity. And when you get good results, you can ³ them with friends, too! The one I've bought has a big face and comes in different colors. My sister has one, too, but ⁴ looks different. I think mine is nicer! I need to ⁵ my watch every few days. I haven't done it ⁶ the weekend, so I'll do it now. I simply plug it in and leave it for a few hours. And that's it!
