## Apply Concepts

Circle the word that matches the meaning.

1 tell what you learn	communicate	observe
2 sort things into groups	sequence	classify
3 tell how things are alike and different	make a model	compare
4 put things in order	sequence	hypothesize
5 find out how much or how long	measure	infer
6 use your senses	make a model	observe
7 make a good guess about what will happen	predict	sequence
8 decide what steps to follow	draw conclusions	plan an investigation

**Family Members:** Discuss with your child how inquiry skills are used around the home. For example, you measure when you cook and classify when you sort laundry.
