4. READING: Read the the following paragraph and answer the questions.

Toby is a puppy. He is Mister Rogers' pet. When Mister Rogers goes to work, Toby feels lonely at home. That is why Mister Rogers takes his dog to a pet kindergarten every time he leaves the house for a long time. There are many kinds of dogs in the kindergarten for pets: large and small, fat and thin, long-haired and short-haired ones.

Toby loves to run and play with other dogs. But most of all, the puppy loves to put rubber balls in buckets. Toby has a lot of balls and only a few small buckets. He grabs a ball with his teeth and runs to a bucket. He puts the ball in a bucket and runs back for another ball. One, two, three balls – the first bucket is full. One, two, three, four balls – the second bucket is full. One, two, three balls – all the buckets are filled with balls. Toby is happy!

Can you find Toby? Circle the picture of Toby.
