Practice 2: Read and choose the correct words to put them on the boxes.

1. This is the main body of a plant. It helps to hold fruits and leaves.

2. This is a part of a plant that sticks to the ground.
It helps to absorb water and nutrients from the soil.

3. It means you carry or support something with your hands.

4. It means not easily broken, solid and cannot be bent.

5. It means moving something from one place to another place.

6. It means keeping something for later use.

7. There are many of them on a tree. They are green. Some of them turn into red or yellow when it's autumn.

8. We can eat this part from most of the plants. They can be sweet, sour or spicy.
