

CRUCIGRAMA MATEMÁTICO

$2 \times \square = 18$

$9 \times \square = 27$

$\begin{array}{c} \times \\ 5 \\ = \end{array}$

$\begin{array}{c} \times \\ \square \\ = \end{array}$

$\square \times 2 = 90$

$6 = \square \times 3$

$\begin{array}{c} \times \\ 8 \\ = \end{array}$

$\begin{array}{c} \times \\ \square \\ = \end{array}$

$\square \times 3 = 48$

$\begin{array}{c} \times \\ \square \\ = \end{array}$

$4 \times \square = \square$

$\begin{array}{c} \times \\ \square \\ = \end{array}$

$24 \times \square = 72$

$\begin{array}{c} = \\ \square \\ = \end{array}$

$\begin{array}{c} \times \\ \square \\ = \end{array}$

$36 \times \square = 72$

$\begin{array}{c} = \\ \square \\ = \end{array}$

$3 \times 144 = \square$
