

Número anterior y posterior

Cuenta la cantidad que se encuentra al centro y escribe el número que corresponde, de igual forma has con el número anterior (quitando uno) y posterior (agregando uno).

The worksheet consists of two horizontal number lines, each with three tick marks and three empty blue circles below them for writing numbers. The top number line features three groups of monkeys. The first group has two monkeys, with the second one crossed out by a large red 'X'. A red curved arrow points from the first monkey to the second position. The second group has two monkeys. A green curved arrow points from the second monkey to the third position. The third group has two monkeys, with the second one circled in red. A red curved arrow points from the first monkey to the second position. The bottom number line features a single bird in the center position. A red curved arrow points from the bird to the first position, and a green curved arrow points from the bird to the third position.
