

Moving in

Complete the text below using the structure 'have something done':

We've just bought a new house. The location is perfect, but now we need to make a lot of improvements before we can move in. Firstly, the walls are pretty dirty so we definitely need to have them painted (paint/them). Next, we need to _____² (check/the pipes) because the walls are quite damp and I think there might be a leak somewhere. The old door handles also need to be replaced with new ones, but I think we can do that ourselves.

Another thing we want to do is completely remodel the kitchen – we're thinking of putting in new kitchen cabinets and we want to _____³ (install/a new cooker). I think we'll also need to _____⁴ (repair/the door) as it's in pretty bad condition.

Another thing to think about is the heat. It gets really hot in the summer so we will definitely need to _____⁵ (install/air conditioning). That's going to be quite expensive but I think it's necessary.

Finally, the carpets must go! We're going to _____⁶ (remove/them) and replaced with wooden floors. They'll look much nicer!
