

Concept\_CW\_G8\_ Laws of Exponents for Negative Powers

**Match the following :**

(i)  $4^{-3}$                       A.  $1 / (-3)^4$

(ii)  $(1/2)^{-5}$                       B.  $(3 / -2)^5$

(iii)  $(4/3)^{-3}$                       C.  $2^5$

(iv)  $(-3)^{-4}$                       D.  $1/ 4^3$

(v)  $(-2/3)^{-5}$                       E.  $(3 / 4)^3$
