1 Doing _____ is as good as going to the gym

Doing exercise for 30 minutes a day is good for your health, a new Canadian study has found. The study looked at 130,000 people in 17 countries. Only 3% of the people did 30 minutes of sport a day, like running or swimming. But the researchers found that you don't need to do sport or go to the gym – any form of physical activity is good for you, including housework. Activities like doing the cleaning are really good exercise, so you can stay healthy and have a clean house at the same time.

However, they don't say what happens to children who say no when their parents ask them to do something.
