I love cooking!

Marie Perdu is famous for her amazing cooking. She lives in Paris and works in great restaurants. You can often see her on YouTube, but Marie is fourteen years old!

Marie looks like any other teenager. She has two brothers and a cat. She goes to school every day and always does her homework. She often goes shopping with her friends and she sometimes goes to the cinema with her dad.

She never plays computer games or watches TV because she usually cooks in her free time. She always cooks a big meal for her friends at the weekend. Sometimes she cooks for forty or fifty people! Her brothers wash the dishes and help Marie to take the food to the table.

Marie doesn't feel nervous when she works in busy kitchens because she loves cooking so much. What is Marie's dream? She wants to have her own restaurant with her own kitchen!
