

Choose the correct item.

Your Future World

What will you be doing in a few years?

Will you be living in an undersea research station? Will you be the chief engineer **1** _____ a bridge across the Atlantic Ocean? Will you be leading an **2** _____ to the planet Mars? Will you be ...?

You can daydream, of course, but nobody knows exactly what the world will be **3** _____. But scientists have made some guesses.

Based on the advances made, they believe people will be healthier. Diphtheria, malaria, tuberculosis, polio and many other killers are under control now. These diseases are on the way out, **4** _____ to germ-killing chemicals, new ways of finding out about our bodies, and new ways of providing clean, safe **5** _____ and water.

Healthier people live longer, so we can expect the world's population to **6** _____ sharply. It may double in the next forty years! This brings up a serious problem: how will we find food, water, and minerals for such a huge population?

Scientists are at work on some **7** _____. From the ocean they hope to get new fertilizers to increase the yield of the soil; new chemicals to kill crop-destroying insects without **8** _____ other animals, new sources of water or supplies of food.
