How Fresh Is Your Fruit?

Most people need to eat at least two pieces of fruit every day to be healthy. Apples, bananas, and grapes are the most popular kinds of fresh fruit in the U.S. People like these kinds of fruit the most.

Map: Where Is Fruit from?
Some popular fruits are from the U.S. Some are from other countries.

Apples

Most apples in the U.S. are from the state of Washington. 60% of the apples in the U.S. are from Washington. New Hampshire, New York, and West Virginia also have a lot of apples.

Apples are most fresh from August to October. But people buy apples all year. Stores keep apples in the refrigerator for a long time, like 10 months. The refrigerator makes apples taste fresh, even when they are old.

Grapes

87% of grapes in the U.S. are from California. Washington and New York also have grapes. Most people eat about eight pounds of grapes in a year.

Caption: Grapes are a popular fruit.

Bananas

Latin America has the most bananas in the world. 94% of bananas in the U.S. are from Latin America. The U.S. buys most bananas from Guatemala and Ecuador. Most people in the U.S. eat about 26 pounds of bananas every year.

Fresh Fruit

Most people do not know how fresh their fruit is. Fruit is not fresh when it travels many miles, like from Guatemala to the U.S. Fruit is not fresh when it is in the refrigerator for a long time.
