How to say years in English

Basically, we tend to read four-digit years as a pair of 2-digit numbers. For example, 1997 is nineteen ninety-seven. We read three-digit years as a pair or the way we count money.

2013	1997	763
1. two thousand thirteen	nineteen ninety-seven	1. seven sixty-three
2. two thousand and thirteen		2. seven hundred (and) sixty-three
3. twenty thirteen		

BC means before Christ. AD is Anno Domini (after Jesus Christ was born).

1970s means a period of ten years (a decade) from 1970 to 1979.

1500 - fifteen hundred

10) Listen to the years, write them down and practice saying them

1._____ **5.** _____

2._____ **6.** _____

3._____ **7.** _____

4._____ **8.** _____

9. People said the world would end on December 21, _____.

10. Christopher Columbus discovered America on October 12, _____.

11. The U.S. declared independence from Great Britain on July 4, _____.

12. She's been teaching English in Tokyo since _____.

13. A: When were you born? B: I was born on December 25, _____.

14. A: When were you born? B: I was born on _____.

11-12) Listen to the sentences and complete the gaps with the correct number.

1. On average, men worldwide can expect to live _____ years. Women can expect to live to age _____.
2. He says the Global Burden of Disease _____ study presents good news overall.
3. Deaths from infections, childbirth-related problems and malnutrition fell about ___ percent to _____ million.
4. Almost _____ of American children and teenagers are overweight.
5. Injuries increased ___ percent between _____ and _____.
6. Six activities produced ___ percent of all injuries: running, basketball, football, volleyball, soccer and gymnastics.

Telephone Numbers in English

In the U.S. phone numbers have seven digits, plus an area code. The number zero ("0") can be pronounced "oh" or "zero." We say the area code as single digits.

If two digits are the same, some people may use "double" to say the same two numbers such as 7700, double seven double oh.

a typical phone number in the U.S.

(917) 642-8073

area code

Zero "0" is pronounced either "oh" or "zero."
"Oh" is more common.

13) Listen to the phone numbers

1._____

2._____

3._____

4. _____

5. _____

6. **What's your phone number?**

_____

LIVEWORKSHEETS

Look at the code. Use it to write the words below.

1=H	2=R	3=D	4=N	5=F	6=M	7=W	8=U	9=A	10=T
11=L	12=E	13=Y	14=I	15=S	16=G	17=V	18=O	19=X	

1 12 11 12 17 12 4 = _____

2 10 8 12 15 3 9 13 = _____

3 12 14 16 1 10 = _____

Think of three words, days, or numbers and put them into the code. Dictate the code numbers to your partner. He / she writes the words.

LIVEWORKSHEETS

Measurements

Look at how to say measurements.

10mm	ten millimetres
10cm	ten centimetres
10m	ten metres
$10m^2$	ten square metres (area)
5×2	five by two (area/cross section)
$10m^3$	ten cubic metres (volume)

Don't use 'of' with units of measurement:

two hundred euros/gigabytes
(NOT ~~of~~ euros/~~of~~ gigabytes)

Other points

Note the phrase 'on average'.

On average *we assemble 80 cars a day.*

Note the prepositions in these examples.

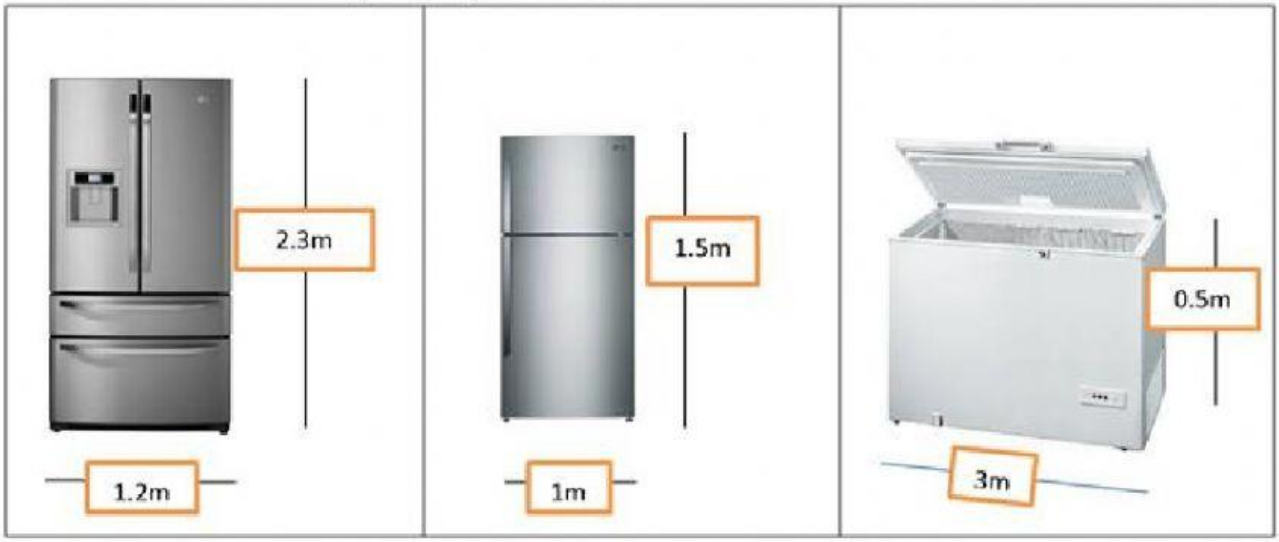

We had an increase ***in*** *sales* ***of*** *6%.*
Sales increased ***from*** *€14m* ***to*** *€16m.*
