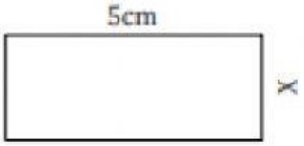
The Perimeter of Squares and Rectangles

Perimeter = 12cm



To find the length/width of a rectangle.

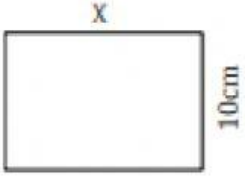
$P = 2(L + W)$.

$P = 12cm = 2(5cm + X)$

$X = 1cm$

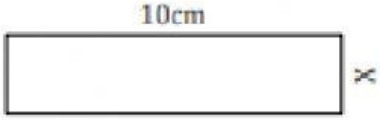
Find the length/width of a rectangle using perimeter.

1) Perimeter = 34cm



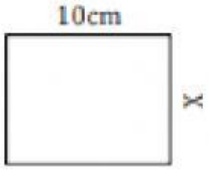
X = _____

2) Perimeter = 28cm



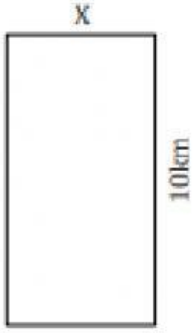
X = _____

3) Perimeter = 38cm



X = _____

4) Perimeter = 40km



X = _____

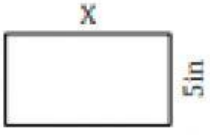
5) Perimeter = 26mm

X = _____

6) Perimeter = 22cm

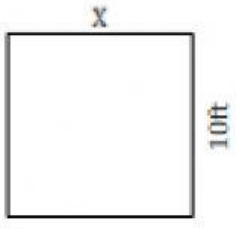
X = _____

7) Perimeter = 16in



X = _____

8) Perimeter = 38ft



X = _____
