Answer: , , ,

How long is the blue line below? Include the unit.

Answer:

Sumra wants to buy two bookcases, each 46cm long. She wants to put them next to each other in her bedroom. How much space would both bookcases take in total?

Answer:

Sumra has 90cm space available for the two bookcases. She says: 'I can buy the two bookcases and would still have a two cm gap. Is Sumra right? Give a reason for her answer.

Answer:
