Wearing Your Seat Belt

When I get into a car, it is very important to put my seat belt on straight away.

My seat belt keeps me safe.

It is very important to make sure the seat belt is nice and snug. It must stay like this when travelling. This helps to keep me safe.

When I get into a car, truck, bus or airplane, the first thing I will do is grab the seat belt strap, find the handle, and push it into the holder. When I hear a click sound, I know I am safe.
